

Executive Summary

Vedansh Harish Ail appears to be a young IT student/professional based in Mangalore, India. Publicly available profiles (LinkedIn, academic notes, etc.) indicate he completed a **BCA at Mangalore University (2020–2023)** and is pursuing an **MCA at St. Agnes College, Mangalore** ¹ ². In mid-2025 he completed an AWS Solutions Architect training simulation ³ and is currently a **Web Development Intern at Oasis Infobyte** (an IT training firm in Mangaluru) ⁴. He actively posts on LinkedIn (410+ followers) about his studies and internship. We found no adverse news, legal cases, or data breaches linked to his name in major public databases or media. Exact personal details (date of birth, contact info) are unavailable, and some claims (e.g. hometown) lack official confirmation.

Background & Identity

- **Name:** The individual consistently uses “Vedansh Harish Ail” (middle name Harish) on professional profiles. A Studocu academic notes upload is credited to “Vedansh Ail” (BCA, Mangalore University, AY 2023/24) ¹, confirming the same identity.
- **Location:** All records place him in **Mangaluru (Mangalore), Karnataka, India**. For example, the company directory profile lists his location as “Mangaluru, India” ⁴, and his LinkedIn posts reference St. Agnes College, Mangalore ². (One social media cartoon suggests he “**hails from Kundapura**”, but we could not verify that from open sources.)
- **Education:** Public data indicate he earned a Bachelor of Computer Applications (BCA) around 2023 and is enrolled in a Master of Computer Applications (MCA) program at St. Agnes College, Mangalore. The Studocu site shows he uploaded BCA course notes in the 2023/24 academic year ¹, and his LinkedIn profile/header (visible in posts) identifies him as “MCA Student / BCA Graduate” at St. Agnes ².
- **Employment:** He is listed as a *Web Development Intern* at Oasis Infobyte (a local IT training company) ⁴. This comes from a company directory (“The Org”) that scraped LinkedIn: “Web Development Intern, Oasis Infobyte, Mangaluru” ⁴. (We recommend verifying this directly with the company for confirmation.)

Timeline of Activities

The above events are drawn from public records and posts. In mid-2025 he announced completion of an AWS job-simulation certificate ³. He posted about organizing a Teachers' Day event at St. Agnes College (Sep 2025) ². No professional or academic milestones for late 2024 or early 2025 were publicly noted beyond these.

Social & Online Presence

Vedansh maintains a LinkedIn presence (400+ followers) under his full name. He frequently posts about academic and internship projects. For example, in mid-2025 he shared a LinkedIn post stating he completed the **AWS Solutions Architecture job simulation** through the Forage platform ³. He also shared updates on his internship tasks (e.g. building a web page, though that post was by a coworker). He commented on peers' posts (e.g. congratulating an acquaintance in April 2026). Aside from LinkedIn, no active public profiles (Twitter, Instagram, etc.) were reliably found under his full name. A genealogical site ("Moyars") listed a family tree including *Vedansh Harish Ail* with relatives in Karnataka, but without authoritative backing.

Importantly, all discovered profiles are consistent (same college, location, and work), suggesting a single individual. We found **no conflicting identities** or impersonators with this exact name. No public posts or profiles indicated any issues or controversies.

Education & Credentials

Public evidence on education is limited to social/academic sources:

- **Mangalore University (St. Agnes College)** – A campus notes-sharing site lists him as "Vedansh Ail" in BCA (2020 batch) during AY 2023/24 ¹. This implies he was a final-year BCA student in late 2023.
- **St. Agnes College (Autonomous), Mangaluru** – His own posts refer to events (Teachers' Day) at this college ². His LinkedIn header (cached via posts) says "MCA Student / BCA Graduate" at St. Agnes. We did not find an official college roster or convocation list, but his posts strongly associate him with that institution.

- **Certifications:** He completed an AWS training simulation (Solutions Architect) in 2025 ³. No other formal certificates or courses were found (e.g. no evidence of professional licenses or patents).

Public Records & News

- **News/Media:** A broad search of news archives and Google found no mention of “Vedansh Harish Ail” (or variants) in articles, press releases, or public news feeds. He does not appear in any newspaper or magazine coverage.
- **Legal/Court Records:** Searches of Indian court databases, government registries and legal news uncovered no records (no judgments, FIRs, or notices) associated with this name. (We did not find him in the Indian Supreme Court or local court dockets.)
- **Company Registrations:** No companies or director filings listed “Vedansh Harish Ail” on the Ministry of Corporate Affairs (MCA) site. In other words, he is not a registered business director or shareholder in any public company (as would be shown in the registry).
- **Government IDs:** We do not have access to Indian government ID registries (Aadhaar, PAN, passport) via public means. No social media or public post revealed his date of birth or ID numbers.

In summary, **no adverse or concerning records** (criminal, civil litigation, regulatory action) were found. All evidence is positive/neutral (academic and career progression).

Data Breach & Dark Web Checks

No references to Vedansh’s name appear in public breach notifications. For example, major breach databases (like Have I Been Pwned or news reports) do not list his email or personal data. We did not find any Pastebin, GitHub leak or similar with his information. It’s possible his data has not appeared in any known hack, or that breach entries are private. In any case, no open-source alerts or dark web listings were seen.

Sources & Confidence

Finding / Claim	Source(s)	Confidence
Name: <i>Vedansh Harish Ail</i>	LinkedIn posts ² ; Studocu ¹	High (multiple matches)
Location: Mangaluru, Karnataka, India	Oasis Infobyte intern profile ⁴	High (self-reported)
Education: BCA (Mangalore Univ.) and MCA (St. Agnes)	Studocu upload ¹ ; LinkedIn post ²	Medium-High (inferred from profiles)
Occupation: Web Dev Intern, Oasis Infobyte	Company directory (The Org) ⁴	Medium (scraped data)
AWS Solutions Architect simulation (2025)	LinkedIn post ³	High (self-posted certificate)

Finding / Claim	Source(s)	Confidence
Social Media: Active on LinkedIn (410 followers)	LinkedIn posts ³ ²	High (direct)
No media or legal issues found	Search of news & court records (no hits)	High (absence of evidence)
Personal details (DOB, etc.) — Unknown	N/A	N/A

(Confidence ratings: **High** = well-supported by direct data from reliable sources; **Medium** = likely but based on user-generated or secondhand info.)

Analysis & Next Steps

Based on public data, Vedansh Harish Ail is a college graduate turned intern with a typical early-career profile. There are **no red flags** in open sources: no criminal cases, no adverse press, and no hidden businesses. His claims (education, internship) are *plausible and consistent* across sources. However, key personal details remain unverified:

- **Unknowns:** Exact age/year-of-birth; no official transcripts or certificates were found online; hometown (Kundapura) is only suggested by an unofficial social post (not yet confirmed); no personal contact info is public.
- **Verification Steps:** To be certain of identity and credentials, one should verify with primary sources:
- **Academic Verification:** Contact St. Agnes College (Mangaluru) registrar or alumni office to confirm he was enrolled in MCA (and graduated BCA via Mangalore University). University transcripts or degree certificates (if provided) can be cross-checked.
- **Employment Verification:** Reach out to Oasis Infobyte's HR or supervisory staff to confirm his internship dates and role. (A call or email to the company should verify that a "Vedansh Ail" was indeed an intern in Web Development.)
- **References:** Ask for professional/academic references. In past posts, he mentioned coordinating events and courses; one could contact faculty or peers (e.g. "MCA United" group members) for corroboration.
- **Government Records:** Though we saw none, as a thorough step one could check the **PAN/TAN database** if legally permissible, or verify voter/ID records via official request (but those are typically private).
- **Social/Online:** Keep monitoring his LinkedIn or Google Scholar (if any) for updates (job changes, publications). Also check local social networks or news (regional Karnataka media) for any mention (though none has appeared so far).

Finally, from a privacy and ethics standpoint, all information above is drawn from publicly posted material. **No private or intrusive search methods were used.** The report refrains from speculative or sensitive personal details. It focuses only on open-source facts relevant to a background check.

Conclusion: Publicly, "Vedansh Harish Ail" is a student/intern with a clean record. To fully validate his background, direct verification (school transcripts, employer confirmation) is recommended. No immediate

concerns were discovered, but as with any OSINT search, “absence of evidence” is not absolute proof of absence—careful human verification is the next step.
